

CSMRS

Training Programmes organized during the period 2011 - 2012

Sl. No.	Training Topic	Period
1	Dynamic characterization of soils	29-30 September 2011
2	Concrete Technology and Soil Mechanics including laboratory testing (Organized for IGNOU students)	26-29 September 2011
3	Geotechnical investigations for hydroelectric projects	27-29 February 2012
4	Testing of rock and rock mass for river valley projects and its importance	2-3 February 2012
5	Geotechnical instrumentation for hydro power projects	23-24 February 2012
6	Repair and rehabilitation of dams	16-17 February 2012
7	Effect of environmental Factors on Durability of Concrete and Hydro Mechanical Equipments	12-13 March 2012
8	Quality Control Measures for Hydraulic Structures	15-16 March 2012
9	Drilling and grouting technology for river valley projects	20-21 March 2012
